

Advanced (Level III) – Q9

Write a program that allows the user to input the number of times of rolling a dice. Then, roll the dice for that number of times randomly and count the frequency of getting each number. The following is the output of this program and the text in bold represents the user input:

```
How many times do you need to throw the dice? 10000  
Face 1: 1653  
Face 2: 1650  
Face 3: 1705  
Face 4: 1668  
Face 5: 1639  
Face 6: 1685
```
